SHARED OWNERSHIP

A NEW WAY OF LIVING

KEY FEATURES

- You buy and own a genuine financial stake in your home, rather than renting with no return
- It's your place – you decorate and furnish it as you wish....and, no, you don't 'share' it with anyone else!
- You buy the share that suits your budget and pay a low monthly fee to us for the bit you haven't bought
- Monthly costs are around the same as renting a similar home on the open market
- You need a lower deposit, as it's based on the price of the share you buy, rather than the full value
- Just like owning outright, when you want to move on, you simply sell your share to a buyer like you for its market value at that time
- Or, when the time is right, you can buy more shares (and so pay a lower monthly fee to us)....until it's all yours!
